

DAMON

dining table

1

Make sure the table stand is stable on the ground and the groove is clean before you put the table top on.

2

To put the table top on the table stand, you need at least 2 people.

3

When the table top is on the table stand, turn the table top around until it is fixed.

- When you move the table to another area, you will need to remove the table top from the stand and assemble again once the table is in the correct spot.
- Do not stand on the table, or put too much weight on one side of the table.
- Max weight 50 kgs at one side of the table top.
- Pay attention - Please stop turning the table top when you feel resistance, otherwise it will be damaged.
